

Project:
 Land Development Strategy for Highway#1
 Mt. Lehman Interchange Upgrading

Client:
 British Columbia Ministry of Transportation

Dates:
 1999 to 2004

Project Type:
 Site Planning

Consultants:
 City of Abbotsford, Reid Umlah

Description:
 A land development strategy was prepared to maximize the value of surplus Crown lands around the Mt. Lehman Interchange consistent with the existing OCP. The study included a land use analysis, land valuation and access considerations in preparation of a major upgrading of the interchange.
