

“Surrey Trade Centre” 8363/85 - Surrey, B.C.

Client

Mann Capital Management Corp.

Dates

Project Type

Retail, Warehouse

Consultants

Mainland Engineering (Structural & Civil), SRC Engineering (Electrical / Mechanical), LA West (Landscape Design)

Description

Commercial Project consisting of three two storey buildings with total floor area of 86,426sq.ft. (8030sq.m.)

Corner location of this lot gave the opportunity to create an internal urban space between the buildings as well as the exposure towards the flanking streets. The simple structure of concrete tilt-up panels was enhanced by an industrial looking steel canopy which accentuates the main entrance.
